Please provide a brief description of the proposed changes:

****If the request is denied, the requester has the right to appeal the decision of the committee within 30 days of the committee meeting at which the request was denied. This may be done by submitting a request for appeal in writing using any method below. The appeal will be considered at the next Board of Directors meeting after the appeal has been received. An appeal received more than 30 days after the committee meeting at which it was denied will not be considered. If a request has been denied and the requester wishes to change some of the request specifications in order to have it approved, then it needs to be resubmitted through the normal channels as a completely new request. This resubmission also resets the 30 day clause in which the requester must receive a decision by the committee.**
