Park Place Townhomes– Mailbox Replacement Project

## Your input is requested...

Dear Neighbors,

Many of the neighborhood mailboxes have become inoperable and will need to be replaced. In an effort to maintain conformity and to reduce the future cost of the mailbox maintenance; a new mailbox has been selected. These mailbox styles change from year to year so we will need to purchase all 104 mailboxes at the same time even if all of the mailboxes do not get replaced this year.

The proposed new mailbox style has been installed at the clubhouse where the drop box is located. Please take a moment to look at the mailboxes this week and let the HOA know if you have a strong aversion for the new style. Although we do not expect 100% of the residents to like the new style; we want to be sure there is not a large enough objection to warrant selecting a different style.

Please send your input to:

[david@grandchestermeadows.com](mailto:david@grandchestermeadows.com) or put a note in the drop box by Friday April 3, 2009. The Board will make a final determination next week based on the feedback received.

Thank you!
