

TROON RULES & REGULATIONS REVISION
SOLATUBE SKYLIGHT

One 10” diameter “Solatube” skylight may be installed from the exterior of the roof to the interior ceiling of the kitchen area. This size and location is the only pre-approved skylight that is allowed. The ventilation option is not allowed. This product must be purchased and installed by the “Solar Solutions, Inc.” company. Their contact phone Number is: 919-941-0061 for pricing and installation information.

The homeowner is responsible for:

- a) All material and installation costs.
- b) Any future maintenance costs associated with this product. A waiver must be signed by the homeowner releasing the HOA from any and all maintenance and repair costs due to installation of this product.
- c) Insuring that only the “Solar Solutions, Inc.” company is used for purchase and installation of the pre-approved 10” “Solatube” skylight product. No alternative type product is allowed to be installed.
