Camera system: Secur-Tek, Inc. proposes to install a (4) camera system recorder, (4) cameras, with (2) optional cameras and upgrading recorder to an (8) camera recorder. The recorder will connect to an open port on the network router to be able to view the cameras remotely using authorized username and password. The system will record when the pixel image changes and will record 4-6 weeks depending on recorded activity. Honeywell camera equipment comes with a 2-year warranty for parts all other equipment and labor has a 1-year warranty.

Equipment/work overview:

- (1) Honeywell model HN35040104 (4TB storage) Network video recorder
- (4) Honeywell model HC35W45R3 (5MP exterior rugged) dome camera

Total for camera system installation as listed above-\$3,112.00 Initial

Optional 5th and 6th cameras and upgrade to (8) camera recorder:

Add two cameras and upgrade to (8) camera recorder-\$1,698.00 Initial

Lobby door access system:

Quote includes a single door access control panel, gate keyfob reader, and setup connection to Secur-Tek server for hosting access system allowing ability from any computer with internet access using username and password to add/delete keyfobs of employees. Control panel will be installed in equipment closet connected to internet.

Equipment/work overview:

- (1) Keyscan model CA150 control board
- (1) POE injector for panel power
- (1) Keyscan Reverse License (needed for remote connection using internet)
- (1) Keyscan Client License (needed for remote connection using internet)
- (1) Keyfob reader
- (200) keyfobs (come in packs of 50)
- System installation and customer orientation

Total for door access installation as listed above-\$3,964.00. Hosted service on Secur-Tek server is \$30.00 per month billed quarterly with a yearly agreement Initial

Note: Option to host access control connection on Secur-Tek server to be able to add/delete users remotely using authorized username and password is \$30.00 per month billed quarterly requiring a yearly agreement. If Suncrest Villages HOA accepted and then decided to discontinue optional service connection to Secur-Tek server after the required yearly agreement, purchase of AURORA software and labor to setup on local computer including transfer of data from server will be charged based on material and labor costs at that time. Initial

Quote is valid for 30 days. With a returned signed quote and approved work initialed Secur-Tek will email 50% deposit invoice for approved work and schedule installation when deposit payment is made.
